

PURE

PURE Sauna: outer cladding in white high-gloss varnish, glass front extends around corner, TOUCHCONTROL control unit.

PURE

Our PURE Sauna very much lives up to its name. The puristic design of the cabin exudes simple elegance and presents a total sense of well-being by its very look. The outer cladding in white high-gloss varnish integrates stylishly into any ambience, and the generously proportioned fully glazed door ensures both relaxed thoughts and a wide visual perspective during sauna bathing. The interior of the PURE is a match for its exterior in every regard when it comes to elegance. The wall cladding in

high-quality hemlock wood is given a particularly noble touch by the use of fine and precisely worked horizontally fitted rods and indirect lighting. Such a sense of aesthetics has enthused keen sauna goers and the jury of the iF product design awards alike. If you wish to enjoy a little beauty treatment to accompany the excellence of the design of your sauna experience, we will be happy to integrate our COLOURED LIGHT feature on request. This includes the skin-firming function of LIFTLIGHT – delivering relaxation you can see as well as feel.

PURE bench furnishing, SUNSET indirect lighting, COLOURED LIGHT with LIFTLIGHT.

Internal cladding in real wood veneer panels with horizontally fixed rods in solid hemlock.
