**Transparent design**
Agile and gentle lines, high volumes, large glass panels, high-quality materials, elegance and refinement: Mynima is the expression of a design that dedicates the art of minimalism to everyday life. The large glass screens are covered with Crystal Clear to ensure maximum transparency even after use.

**Functionality and avant-garde style**
The anodised aluminium column contains the commands to activate the back hydromassage, the large raindrop shower head and the steam bath. The seat is made from Techstone®, as well as the shower tray which has been lowered almost to floor level. The temperature is kept constant by the thermostatic mixer which ensures the hydromassage is performed at the optimum temperature. Mynima is also available with the glass wall.
**The essence of vitality**
Enerjet is the system of adjustable water microjets created from Jacuzzi® technology: an unmatched source of energy and freshness. The jets are designed to target the various muscle groups and provide a pulsating massage.

**Aquafeeling Effect**
Intimacy, gentleness, relaxation, wellness: the exotic atmosphere of the Tropical Shower awakens the senses, caresses the skin and, in soft flowing streams, revives the spirit. Also the functions of steam bath and aromatherapy are available.
